

RELIABLE, TRUSTED, LONG-TERM SOLAR ENERGY INDUSTRY PARTNER

Creating a sustainable
future together.

BANKABLE | RELIABLE | TRUSTED

BOVIET SOLAR

Company | Boilerplate

LONG VERSION

Boviet Solar, an INOX Solar Americas company founded in 2013, is a leading solar technology company specializing in the manufacturing of advanced monocrystalline PV cells and premium Gamma Series™ monofacial and Vega Series™ bifacial PV modules. Boviet Solar's top-performing modules are engineered for a wide range of applications, including residential, commercial, industrial, community, and utility-scale solar projects.

Boviet Solar combines business acumen, financial strength, technological expertise, and manufacturing excellence to deliver reliable, high-efficiency solar solutions to industry clients. The company is deeply committed to sustainability, supply chain traceability, and compliance with U.S. and international trade standards, while fostering long-term, trust-based partnerships across the energy sector. Boviet Solar has earned industry-wide recognition for quality and reliability.

Boviet Solar has earned multiple global bankability recognitions from leading independent research and analytics organizations. The company has been consistently ranked as a Tier 1 PV

Module Manufacturer by Bloomberg New Energy Finance (BNEF) since 2017, named among Wood Mackenzie's A Class Bankable Global PV Module Manufacturers since 2024, and listed among Sinovoltaics' Top 10 Most Financially Stable PV Module Manufacturers since 2024. Additionally, PV ModuleTech has ranked Boviet Solar among the Top 20 Global PV Module Manufacturers since 2022, while Kiwa PVEL has recognized the company's products as Top Performers in its PV Module Reliability Scorecard since 2019. Collectively, these distinctions underscore Boviet Solar's strong bankability, financial resilience, and long-term reliability.

Boviet Solar operates its U.S. manufacturing facility in Greenville, North Carolina, supporting domestic solar deployment through localized production, consistent supply, and efficient logistics. As an INOX Solar Americas company, its operations are aligned within a broader renewable energy platform under INOX Clean Energy and the INOXGFL Group, strengthening long-term positioning, operational stability, and alignment with evolving U.S. market and regulatory requirements.
